

# ROMAC INDUSTRIES, INC.

21919 20th Avenue SE • Suite 100  
Bothell, WA 98021

---

To our valued customer:

On February 17 of this year the American Recovery and Reinvestment Act of 2009 was signed into law. The intent of this is to stimulate economic growth throughout the country by putting America back to work. The impact will be felt through the creation of work funded by the "Stimulus Bill" and by the preservation and creation of jobs by requiring products manufactured in the United States be used in these projects. More specifically, stimulus funded projects must utilize U.S. manufactured products when available competitively.

Since 1969 Romac Industries has provided the waterworks industry with high quality, dependable, and innovative products produced in our own facilities right here in the United States. Today, we not only manufacture our products in the USA, but we even manufacture the majority of the components used in our products as well. By pouring ductile iron in our own foundry, molding gaskets in our rubber department, shearing stainless steel, threading our bolts and punching out our own washers, we provide you a high quality product and can assure you that it is manufactured, assembled and produced in the USA.

The ARRA is a lengthy document, but the buy American provision is very clear and concise. In Section 1605 it states a requirement that, "None of the funds appropriated or otherwise made available by the Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel and manufactured goods used in the project are produced in the United States."

Romac Industries has always been committed to, and proud of, our multiple domestic manufacturing facilities and the hard work of our employees throughout the United States. We are pleased to supply you high quality, competitively priced, American made waterworks products for any project you may have.

For more information about our compliance with the American Recovery and Reinvestment Act of 2009, or any of our products, please contact us at 1-800-426-9341 or visit our website at [www.romac.com](http://www.romac.com).

We appreciate your support and are confident that by working together we can get through these most difficult times.

Sincerely,

Peter L. Schmidt  
Vice President, Sales  
Romac Industries, Inc.
